ARCHER LOW-VISCOSITY UNI-FLUID XP LUBRICANT

Archer Low-Viscosity Uni-Fluid XP is a multifunctional, superior-quality fluid, specially formulated for use in transmissions, final drives, wet brakes and hydraulic systems of tractors and other equipment employing a common fluid reservoir.

It is designed for use in low-temperature applications and wherever a fluid meeting John Deere J20D is specified.

It is formulated with high quality base oil, a superior viscosity index improver and a special additive package providing unsurpassed oxidation and corrosion inhibition, anti-wear properties, anti-foam and excellent frictional characteristics.

FEATURES & BENEFITS

- Controlled friction properties for smooth and efficient transmission of power across all normal temperature ranges.
- Excellent lubricating characteristics for quiet operation, smooth shifting, and excellent wear protection.
- Long fluid life and long transmission life.
- Exceptional oxidation stability and resistance to chemical deterioration.
- Excellent viscosity stability (high viscosity index) to help assure adequate lubrication without excessive thinning in severe high-temperature service or thickening at low starting temperatures.
- Superb protection against rust and corrosion, as well as special protection for soldered fittings.
- Excellent resistance to foaming.
- Compatible with common transmission seal materials.

TYPICAL SPECIFICATION DATA

ARCHER LOW VISCOSITY UNI-FLUID XP				
Viscosity @ 100°C (cSt)	7.1			
Viscosity @ 40°C (cSt)	37.1			
Viscosity Index	155			
Density (lb/gal)	7.25			
CCS Viscosity (cP)	NA			
Pour Point (°C)	-45			
Pour Point (°F)	-49			
Flash Point (°C)	188			
Flash Point (°F)	370			
Brookfield @ -20°C (cP)	1,500			

Meets or Exceeds:

- Caterpillar TO-2 Fluid
- Cincinnati Milacron
- Denison HF-0, HF-1, HF-2
- John Deere J20D
- Sperry Vickers I-286-S, M-2950-S
- Sundstrand Hydraulics
- Can be used in most hydrostatic systems
